Research Interests and Scientific Results

I am currently a Research Associate at the University of Rome Tor Vergata. My research interests are in the area of distributed computing systems, with particular emphasis on performance modeling and optimization for distributed applications. I am currently working on run-time adaptation for distributed data stream processing systems and serverless applications.

Since 2017, I have co-authored 4 papers published in international journals, 9 papers published in international conference and workshop proceedings, and 2 peer-reviewed book chapters. As at March 2022, Google Scholar reports 181 citations of my papers, with a h-index equal to 6; Scopus reports 124 citations, with a h-index equal to 6.
